The leader in point-of-care digital display
mounting and mobility

THE NEXT GENERATION OF

StyleView[®] Carts

Designed for Nurses.
Engineered for IT.
Priced for Procurement.
Certified for Safety.

As the leader in both years of experience
and point-of-care computer mounting innovation,
Ergotron is uniquely qualified to assist you
in your EMR, eMAR, PACS
and CPOE implementation.

StyleView®

Lean. Clean. Smart. Cart.

Features and Benefits

Designed for Nurses

- Take it for a spin—StyleView quickly responds to caregivers' touch and effortlessly maneuvers to the point of care
- StyleView's small footprint, with ultra-smooth gliding casters, travels across crowded carpeted or hard floors with ease—perfect for space-constrained areas
- Comfortable, ergonomic data entry—work sitting or standing—helps promote caregiver wellness

- ① Effortless monitor landscape-to-portrait adjustment
- ② Twenty-five degrees of fluid independent monitor tilt
- ③ Side-to-side monitor pan improves data visibility for caregiver, patient and family
- ④ Five inches of independent monitor height adjustment, for 25-inch total height range—increases comfort and productivity for personalized viewing
- ⑤ Twenty inches of worksurface height adjustment for comfortable data entry sitting or standing with Constant Force (CF) patented motion technology
- ⑥ Lighted keyboard tray for nighttime usage
- ⑦ Ergonomic negative-tilt slide-out keyboard tray with left or right mouse tray ensures wrists remain in a neutral position during data entry—avoid repetitive-stress injuries and increase comfort and productivity
- ⑧ Electronic autolock drawer, programmable with keypad; second drawer accessory can be added to carts with a drawer
- ⑨ Four ultra-smooth gliding casters for extremely easy push/pull mobility; two locking casters ensure lock-in-place stability

Engineered for IT

- Accommodates multiple configurations, including open notebooks, closed notebooks with monitor, CPU and monitor, thin clients, tablets and all-in-one computers
- Advanced open-architecture design supports future hardware upgrades
- Includes StyleLink™—the most advanced Power Management Software available: Allows remote configuration of entire fleet of carts and seamlessly integrates with Microsoft tools
- Integrated four-port USB hub and Ethernet ready-on function: Awaken enclosed computer from energy-saving hibernation mode with the touch of an external button
- Fourth-generation power system ensures robust reliability, performance and tremendous run-times—and easy to replace batteries
- The entire unit—cart and power system—is being certified to UL 60601-1
- Compact true sine wave inverter power system ensures optimal performance
- Power System User Interface integrated into the worksurface (includes visual and audible battery status indicator)
- Secure, ventilated storage for notebook, thin client and CPU up to 3.75 inches (9.5 cm) thick

Priced for Procurement

- **Lowest priced cart with most standard features**, including basket, front/rear handles, scanner holder, mouse pouch, advanced cable management, worksurface, four-port USB hub, Ethernet ready-on function and AC inlet powered coiled cord
- **Lowest total cost of ownership of any point-of-care cart.** StyleView is tested to UL/EN/IEC specifications through an ISO certified regimen for superior quality. StyleView uses SLA batteries for long-life performance. When combined with StyleLink diagnostic tools and Ergotron's service plan, using StyleView means less maintenance and on-site technical support costs
- Extensive warranty: 5-year on cart; 2-year on power system; 1-year limited warranty on battery

Certified for Safety

- For patient and caregiver safety, the cart and power system are being certified to UL 60601-1 and NFPA leakage current limits
- Environmentally clean: RoHS, WEEE and EU (94/62/EC) packaging compliant
- Extremely easy to clean design promotes infection control
- Power system complies with EMI limits of FCC Part 15 Class A
