

## Audio/Visual Presentation Center

### Highlights

- Compact footprint takes up minimal floor space
- Equipment shelves mount in 1" increments (24"W, 30"W, 42"W units)
- Multiple configuration options, modular components
- Durable, heavy-duty steel construction, unparalleled weight capacity
- Fixed and Fold-away laminated side table options
- Flat Screen Mounts for individual and multiple displays that easily extend, tilt/swivel, and adjust.
- Cable management that conceals and routes cables
- Lockable, vented CPU Cabinets
- 5" Casters roll the heaviest equipment easily and securely over any floor type
- Industry-leading warranty

The Morrell Industries Audio/Visual Presentation Center organizes all your equipment into a durable and compact footprint. The cart fits easily through doorways and aisles on large lockable 5" casters that provide for easy relocation over smooth or bumpy surfaces.

Support your video and electronics requirements with an open air frame rack solution that provides easy access and multiple reconfigurable options.

With the convenience of a fixed or fold-away side table, and our vented, lockable CPU cabinets, create a multi-purpose workcenter that accommodates your tools, supplies, computer equipment, and your work force.
