**SPECIFICATIONS FOR COMMUNITY
CLASS ACT COLLECTION**

**MODELS: 11A,B,C,D - 12A,B,C,D - 14A,B,C,D - 15A,B,C,D -
16A,B,C,D - 17A,B,C,D - 18A,B,C,D - 19A,B,C,D**

Wood Species: Maple or Oak

Details of Construction: All chair parts are constructed from solid wood. All joints are connected together with mortise and tennon assembly and glue at each joint. All frames are reinforced with corner blocks which are properly fitted into the four corners of the seat frame and securely screwed and glued to the rails. For additional strength and stability, a steel screw is placed through each corner block and into the center of each adjoining leg.

Hardware: Each chair (with legs) is equipped standard with rubber cushion nickel plated glides.

Finish: Each chair has an even coat of a no-wipe stain, followed by a coat of sealer. A light sanding is given and then oven dried for 30 minutes. Another coat of catalyzed sealer is applied and oven dried for another 30 minutes. Another light sanding process is performed to assure a smooth finish. Then the product is sprayed with a 45 sheen catalyzed lacquer and oven dried for an additional 30 minutes. Then there is a 30 minute cool down period before final inspection.

Upholstery: Each seat is upholstered with 1 1/2" high density polyurethane in a pneumatic press to assure consistency in thickness and comfort. All upholstery materials pass the California Fire Retardant Code, Class 1, Commercial Standard 191-53, Technical Bulletin #117.
