**SPECIFICATIONS FOR COMMUNITY  
KEYSTONE COLLECTION  
MODELS: 123A, B, C, D – 153A, B, C, D**

**Wood Species:** Beech

**Details of Construction:** All chair parts are constructed from exterior grade beech. All frames are assembled with combination hardwood dowels and screw/cross-dowel connections. The seat is attached with 4 screws from the bottom side and the back is attached with 4 exterior fasteners.

**Finish:** Each chair has an even coat of a no-wipe stain, followed by a coat of sealer. A light sanding is given and then oven dried for 30 minutes. Another coat of catalyzed sealer is applied and oven dried for another 30 minutes. Another light sanding process is performed to assure a smooth finish. Then the product is sprayed with a 45 sheen catalyzed lacquer and oven dried for an additional 30 minutes. Then there is a 30 minute cool down period before final inspection.

**Upholstery:** Each seat is upholstered with 2” high density polyurethane to assure consistency in thickness and comfort. The backs are upholstered with 1” high density poly. All upholstery materials pass the California Fire Retardant Code, Class 1, Commercial Standard 191-53, Technical Bulletin #117.
