SPECIFICATIONS FOR COMMUNITY COLONY COLLECTION

- Wood:** All rails and legs are constructed from select American red oak hardwood. All lumber is thoroughly air seasoned before kiln drying to a moisture content of 6%. Then the lumber is allowed to temper before milling. Table tops are of flake board inner construction with wood grain laminated face to top. Tops are available to match manufacturer's standard finishes of customer's specified laminates.
- Construction:** Table legs are fabricated from 2" lumber. Rails are manufactured from 1" lumber and are finished to a width of 3". Vertical, mission style slats are made from 1" solid wood and are glued and pinned to the rails. Legs are fastened to the table base with special steel corner braces which are screwed securely to the rails and 2 1/2" leg bolts which are tightly secured with steel locking hex nuts. The top is fastened to the table base with wood screws. The frame is further reinforced with corner blocks which are glued and screwed.
- Edge:** Colony comes standard with flat wood edge 1 1/4" thick.
- Warranty:** Community warrants to the original purchaser that each table will be free from defects in workmanship given normal use for five years of single shift service. Tables used in restaurant applications are warranted for two years. Community will, at its option, repair any defective merchandise with the terms of the warranty. This warranty does not apply to damage resulting from accident, alteration or misuse.
